

What our politicians really think of the idea

Michael Hart — Burleigh

I HAVE no specific feeling on development of The Spit.

I support a cruise ship terminal on the Gold Coast but only if it stacks up and if that

ends up being the Broadwater then so be it.

Michael Crandon — Coomera

I STAND nowhere on the issue of The Spit. It is not in my electorate and it is not my place to comment.

I believe the Gold Coast needs a cruise ship terminal but I do not have a preference as to where it should be located.

Ray Stevens — Mermaid Beach

I THINK the right decision has been made in terms of keeping development off The Spit, which is an iconic area.

Depending on the environment, financial and sustainable aspects of a terminal would be an excellent addition to the Gold Coast but I do not have a preferred location.

Rob Molhoek — Southport

I AGREE there should be no development on The Spit - I have had concerns about it from the start.

I have always had concerns about the

viability of a cruise ship terminal in the Broadwater and I am yet to see a proposal that will not have an impact on the environment and can be done at a cost that makes business sense.

Ros Bates — Mudgeeraba

THE people have spoken and they do not want development on The Spit and I agree we have listened.

It would be great to have a terminal if it stacks up but I do not have any preference for a location.

Verity Barton — Broadwater

I HAVE always said I have got issues with a possible CST in the Broadwater because of the location and have been listening to the people of my electorate and have been passing on their concerns to the Deputy Premier.

I welcomed yesterday's announcement that there would be no development on The Spit.

Mark Boothman — Albert

DID not respond to the *Bulletin* by deadline.

Jann Stuckey — Currumbin

I SUPPORT the comments made by the Deputy Premier earlier this week. We listened to the community and have ruled

out any cruise ship development in Doug Jennings Park and state-owned land on The Spit.

This Government has made it clear that any proposals for a cruise ship terminal must stack up environmentally and have community support.

John-Paul Langbroek — Surfers Paradise

I cannot support any sort of development that would compromise the environmental integrity of the space.

Before I could support any cruise ship terminal proposed by Gold Coast City Council, it would need to stack up against strict financial and environmental conditions.

Alex Douglas —

Gaven

I DO not support a CST in the Gold Coast Broadwater, Seaway or The Spit. I oppose all development other than parks, toilets, small kiosks, stairs for divers, observation platforms, safety systems for lifesavers, sand pumping operations, free car parks and walking paths on The Spit north of Sea World Nara.
